Fresh Fruit	☐
Fresh Vegetables	☐
Cut flowers & foliage	☐
Nursery Stock	☐
Dried Flowers &foliage	☐
Dried Fruit	☐
Dried Vegetables	☐

Instructions for completing the Stakeholder Registration Form

A single registration form should be completed for each individual who wishes to register as a stakeholder.

Section 1: Stakeholder Contact Details

This section seeks contact information for an individual or an individual within a company or organisation. The database allows the recording of a range of information including contact telephone numbers and an electronic mail address. There is space for both postal and street addresses if these are different. A street address is required should a delivery service other than Australia Post be used. We encourage stakeholders to use electronic mail where possible to receive information on Plant Export matters.

Section 2: Stakeholder Categorisation

This section contains a request to identify the single most appropriate category of stakeholder. By identifying stakeholders by category it is possible to better target the distribution of information.

Section 3: Commodity Interests

This information will be used to identify stakeholders who want to be kept informed of the progress of a Plant Export notifications and information for specific commodities.

Stakeholders can identify their commodity interests specifically, such as grains, seed for sowing, fresh fruit, dried vegetables etc or identify their commodity interests generally, such as Grain Exports or Horticulture Exports. Please tick all commodities that you are interested in receiving plant export information on.

Please note that occasionally the stakeholder register will be used to send out general information on Plant Export issues that may not specifically meet your nominated commodity interests.

What Next?

Completed registration forms should be returned by e-mail to grain.export@aqis.gov.au
