

GTA Standards Committee

Agenda Item: 4.1.1
Subject: GrainCorp Submissions Round 2
Date: 5th June 2020
From: Technical Consultant
Purpose: Discussion Leading to Decision

Proposed resolution

- *That Committee discuss the Submission received from GrainCorp*

1 Submission (Received via email)

Hi Tim,

First of all, my apologies for missing getting this info back to you in time. There is a slight amendment/clarification required:

3.7 SFWR: should be all wheat varieties including red wheat; not red wheat only as per the document proposal.

3.8 SFW1: amend the proposed wording to be clearer that Feed varieties are accepted in SFW1. From discussion in last meeting, I thought the proposal was to remove reference to Spring Feed Wheat?

Understand this has gone out for first round, so this will now need to be a second round clarified submission. Talk soon.
