LDs still to be released: SA & WA

1. Purpose

- a) Due to circumstances beyond our control, there has been a delay in releasing the SA and WA LDs
- b) The SA data is currently going through our approval processes by the GTA Commerce Committee and Board. We anticipate they will be released by **mid next week**.
- c) WA is yet to provide their data, at this stage. Once the information has been supplied and undergone the approval processes they, too, will be released. To date, we have no indication of when this data will be supplied however the release of these LDs will be treated as a matter for prompt action.
