

10514NAT
GTA Diploma of Grain Management

Why Introduce a Diploma of Grain Management?

- GTA's objective is to educate stakeholders across the grain value chain from producer to end user
- GTA worked in conjunction with Rural Skills Australia to develop the Diploma of Grain Management
- An extensive industry consultation process was undertaken during the development
- This consultation process identified the need for an industry specific accredited qualification
- The diploma was approved by the Australian Skills Quality Authority (ASQA) in October 2014.
- The diploma workshops commenced delivery in February 2015.

10514NAT Diploma of Grain Management

GTA provides training to meet the needs of industry across the grain value chain - from producer to end user.

- To achieve the Diploma of Grain Management you must complete 10 units made up of 3 core units and 7 elective units. There are no prerequisites for any units.
- The completion of all GTA workshops will credit you with 3 core units and 5 electives leaving only 2 elective units to be chosen to make up the 10 units for the Diploma of Grain Management.
- Completion of the Authorised Officers course will be accepted as a credit transfer for one elective unit.

*** units for which GTA Workshops are available

Assessment

- All GTA workshops have an online assessment
- Cost is included in the registration fee
- Assessment available upon completion of this workshop

Completing the Assessment

- Students will have 8 weeks to complete the assessment
- Each assessment task includes a number of activities and /or tasks to test the students knowledge and competency.
- GTA training uses a benchmark of 70% knowledge and skill level for a competent result.
- Contact the GTA training manager on 02 9235 2155 or email training@graintrade.org.au for further enquires and assistance
- GTA website - www.graintrade.org.au

Recognition of Prior Learning (RPL)

- Prior learning or industry experience recognised with evidence of competency relevant to the unit for which RPL is being sought
- Process enables the student to gain units without necessarily completing workshops
- Summary of units available on the GTA website
- RPL applications are bundled in lots of 3 units as a minimum
- RPL guide is on the GTA website and further information is available at training@graintrade.org.au

Enrolments and Learning Management System (LMS)

- A student login is sent to each participant on completion of the workshop
- When the student has received their login they will be required to download the assessment to their desktop/laptop for completion.
- Upon completion they will need to upload their assessment onto the LMS and submit.
- It would be estimated that the diploma would take approximately 3 years to complete.
- All student assessments and RPL evidence is accessed and uploaded through the LMS
