

AUSTRALIAN BUSINESS WEEK IN INDIA 2017

Monday 28 August – Friday 01 September 2017

Australian Grain Storage & Protection Conference 2017

- With a GDP growing at around 7.0 - 7.5% p.a., India's economy will double between 2010 and 2020, and will double again between 2020 and 2030.
- Agriculture is the largest sector of the Indian economy - \$400 billion, 17% of the total GDP, 11% of India's exports, and supports over half of the employment.
- India is the world's largest producer, consumer and importer of pulses. In 2016-17, India produced 22.14 MT of pulses, which is expected to continue increasing.
- However, according to the World Bank, post-harvest losses in India amount to 12 to 16 MT per year or over \$10 B due to poor grain storage and management.
- The Indian Government is looking at upgrading their infrastructure in order to increase the storage capacity of pulses and to combat pulse beetles infestation.
- Austrade offers to Australian Grain-ETS (Equipment, Technologies, and Services) clients the opportunity to tap into a leading and fast-growing export market.
- At ABWI 2017, your company will have the opportunity to learn from experts, to visit sites, to network with Government, and to meet with qualified customers.
