

Member Update

Title: Procedural Policies

Update No.: 05 of 10

Date of Issue: 25 February 2010

Distribution

- GTA Members – primary contact list. Please circulate to all appropriate internal parties

Background

GTA often receives enquiries with regard to how the organisation develops processes used for generating GTA Location Differentials and GTA Grain Standards.

To enable members and the wider grain industry to better understand the processes followed by GTA's Technical Committees, GTA is developing and will publish policy statements on a range of topics.

Included with this Member Update are the following two policies:

- *Application process to become a GTA Registered Bulk Handling Company*

To view this policy go to: <http://www.graintrade.org.au/governance>

- *Development of GTA Location Differentials*

To view this policy go to: <http://www.graintrade.org.au/governance>

Development of policies

The above policies were submitted to both the GTA Commerce Committee and GTA Transport, Storage & Handling Committee for review prior to adoption by the GTA Board when they met in Perth on 22 February 2010.

Further policies

GTA will release further policies shortly. A policy titled "Development of Grain Standards" has been developed and will be presented at the next GTA Standards Committee meeting.
