

GTA MARKET NOTIFICATIONS

Notice 13 of 2018 • 02 August 2018

TOPIC: *Enhanced Exports Traceability (NEXDOC) – Plant Industry Workshop*

DISTRIBUTION: *GTA Members – primary contact list. Please circulate to all appropriate internal parties.*

1. Status Update

- The Department of Agriculture and Water Resources (DAWR) has released an Industry Advice Notice to advise plant export Electronic Data Interface (EDI) users, exporters, and registered establishments of upcoming Plant Industry Workshops.
- DAWR are in the process of creating the next generation of Exdoc, being NEXDOC.
- Workshops are being held in each state and the dates are attached. Industry is encouraged to attend the workshops and have their say in design and functionality of the new system.

2. Further Information

- For full details, [click here to view the DAWR website.](#)

Enhanced Exports Traceability

Plant Industry Workshop

This is your opportunity to hear about the new export documentation system and have your say.

We are replacing our Export Documentation System (EXDOC) with an upgraded system.

This new system is called Next Export Documentation System (NEXDOC).

NEXDOC Plant is scheduled to be implemented mid-2019.

Commodities will be transitioned to NEXDOC in stages.

This new system does not change our existing certification arrangements.

It is designed to improve product traceability, reporting and to automate manual documentation and assessment processes.

Your views are important to us and will help inform our decisions.
