1. Issue

GTA has been asked to make a late amendment to the 2012/2013 Location Differentials.

The request was given special consideration and accepted by the Chairman of the Transport Storage and Ports Committee, noting the additions have been made prior to the 1 October 2012, and should not have a profound effect on the Track Market.

The amendments are:

- The addition of an ABA site in Ardlethan to Port Kembla and Newcastle.
- The addition of an ABA site in Ungarie to Port Kembla and Newcastle.
