

ALISA CHAMPAKHOKKRUAT

Coordinator - Trade Support
CBH

LOCATION

Northbridge, WA

AGE

27

CAREER GOALS

Alisa hopes to be working in a commercial grain trading role, combining market knowledge, commercial decision-making, and her operational experience.
Alisa is motivated to deepen her expertise in global grain markets, risk management, customer relationships, and trading strategy. Long-term, she aspires to become a respected industry leader who can contribute to the growth of Australian grain exports, mentor emerging professionals, and help drive innovation and collaboration across the grain supply chain.

EDUCATION

MASTER OF FINANCE
Curtin University, WA
BACHELOR OF COMMERCE (MAJOR IN ACCOUNTING AND FINANCE)
Curtin University, WA

WORK EXPERIENCE

As a Coordinator – Trade Support at CBH Group, Alisa supports the end-to-end execution of grain trading activities. Her role involves contract administration, trade execution, position and P&L reconciliation, logistics coordination, freight and shipping support, and oversight of risk management activities, including derivatives and FX hedging. Alisa works closely with other teams to ensure accurate and efficient trade execution.

Before working in the grain industry, Alisa was a Financial Accountant at Australia's largest automotive retail and distribution group. Her role involved financial performance analysis and forecasting, building financial models and reporting tools to track revenue performance, and assisting with budgeting and variance analysis.

THE IMPORTANCE OF FIVE UNDER 30

Alisa sees programs like Five Under 30 as an opportunity to create peer-to-peer connections and knowledge sharing, helping young professionals navigate the industry, learn the terminology and build meaningful networks. Through the program, she hopes to encourage participation by sharing her own experiences and helping create a community where younger professionals feel comfortable asking questions and learning from one another.

Alisa also hopes to promote practical learning opportunities that showcase the diversity of careers available, helping build greater interest and engagement in the industry.

Ultimately, Alisa would like to help create an industry where younger professionals feel valued, informed and excited about building long-term careers.
